

WUSV Champion 2009, "Jogi"
Jürgen Zank drives a specialized DOG-Sport-Trailer

Dog Trailers for Champions

GLA-WEL GmbH is a medium-sized manufacturing and supply company that specializes in processing and forming of stainless steel and aluminium. As one specialty among many, the metal working company builds tailor-made high-quality dog trailers and car boxes for dogs. For example, professional dog sportsmen and champions like "Jogi" Jürgen Zank, transport their dogs with dog-trailers from GLA-WEL.

Dog Trailers with special Outfittings
DOG-Sport trailers by GLA-WEL are functional, comfortable and safe – and they are continually developed further. The long-living trailers impress by their safe driving behavior.

The frame and doors are fully welded with a special aluminium profile which achieves maximum design rigidity. The jointed cross shaft axle offers even greater travel comfort in 4 and 6 berth trailers. The axle screw joints, all screw joints and rivets are made of stainless steel.

One distinguishing feature is the effective ventilation system with additional side ventilation flaps to guarantee optimum air quality. All features are designed with the aim of improving functionality and comfort both for the driver and the dogs. In addition, many extra features are available, for example, extra storage room including drawers and leash holders, additional interior lights etc. The trailer

design is colorful and sporty but, in general, always follows function.

Safe Car Boxes for Dogs for any Type of Vehicle

GLA-WEL GmbH offers quality car boxes that fit into any type of vehicle. The car boxes are optimized and get tested frequently to make them as safe and long-lasting as possible. Veritable safety standards of the fastening system that follow the prescribed law for professional dog transport in Europe (VDI 2700ff / DIN EN 12 195 Part 1 / applying to traffic) guarantee great safety for your dogs. The fastening system originally was designed by GLA-WEL. Each car box, single or double berth, naturally comes with an escape door.
