

Product benefits

- Low weight, therefore super flexible in use
- All-round view possible, light incidence into the box from all four sides
- High stability of the material, due to the constructive nature of the frame for optimum safety: high quality material, reinforced corner connectors in the frame profiles, use of unbreakable, tested and approved standardized plastic material
- Skin-friendly surfaces: The polycarbonate is harmless for the skin
- Excellent forced ventilation with generous, deburred ventilation slits; additional ventilation holes at the top, a 12V fan is additionally available (at an extra charge)
- Stable, easy to operate locking mechanism
- Low-rotting stainless steel rivets and stainless steel screws
- An attractive and friendly design without the market standard "grating optics",
But: Optionally the door can be equipped with bars. The price remains unchanged!
- Order option for accessories (at an extra charge)

PRO DOG Dog Transport Box "M"

Article: 453716

▪ "M" box dimensions (W x D x H): 650 x 750 x 600 mm

▪ PRO DOG Dog Transport Box "S" rear view with escape flap

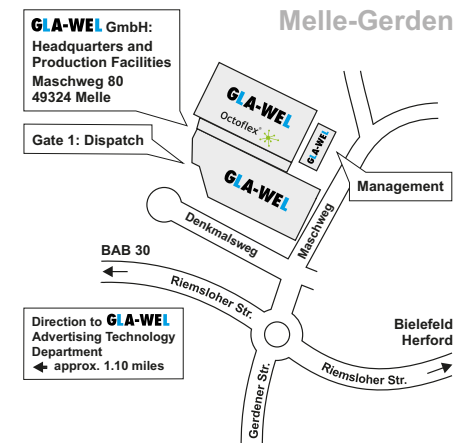

Description for PRO DOG Dog Transport Boxes size "S"/"M":

- Lightweight dog transport box made of anodised aluminium 3.3535 (Anodised: E6C32 "Light bronze")
- The bright dog box for usage in the trunk and vehicle interior (not usable on seats) completely dispenses with bars.
- Side windows, emergency escape flap, door panel with forced ventilation made of flame-retardant, fracture-solid plastic with skin-friendly properties.

Care advice: Care of all surfaces damp with fog or lukewarm water and a little wetting agent (dishwashing liquid), then dry surfaces thoroughly. Avoid highly concentrated, mechanical, abrasive cleaning agents. Only use a soft, lint-free cloth or a leather cloth!
